# 1000 wh power station factory in London

What is a "powerhouse" in Chelsea?

These energy sources produce less pollutants than their forerunners, limiting environmental impact. This year, the Chelsea 'Powerhouse', formally known as Lots Road Power Station, has completed its redevelopment into luxury housing. May will mark the 25th anniversary of the Tate Modern built in the former Bankside Power station.

What happened to Battersea Power Station?

Battersea Power Station, one of London's most iconic landmarks, supplied power to the capital from the 1930s until its decommissioning in 1983.

Where is Battersea Power Station?

Battersea Power Station, on the banks of the River Thames, is one of London's most exciting new neighbourhoods. Around every corner you'll find world-class architecture, with old and new standing side by side in harmony. A Battersea Power Station home is like no other. Looking for the coolest office space in central London?

Who designed WilkinsonEyre Battersea Power Station?

Sebastien Ricard, Director at WilkinsonEyre Battersea Power Station, designed by the renowned Sir Giles Gilbert Scott, first began operations in 1933. This monumental structure quickly became a vital energy source for London, supplying a fifth of the city's electricity and powering landmarks like Buckingham Palace and the Houses of Parliament.
