## Battery cabinet selling points

How to choose a battery cabinet?

The top clearance factor is often overlooked in cabinets, rendering access to the last battery difficult for the technician. As per the geological location, seismic measurements are a must before designing a large assortment of batteries in a single place.

Why should you choose a custom battery cabinet design?

The unique selling point of a custom battery cabinet design is the flexibility it offers concerning simplicity in access. The neat arrangement of cables and grouping them or naming them as per their usage becomes naturally easy.

Are battery units rack-mounted or cabinet-mounted?

Based on the size, the batteries are rack-mounted if they are above 100 AH and used in cabinets if they are below that level. The number of battery units and the respective size of the battery determines rack or cabinet usage.

Do you need a seismic rating for a battery cabinet?

As per the geological location, seismic measurements are a must before designing a large assortment of batteries in a single place. Tipping over, arcing, spillage, fire and toppling can be avoided if due seismic ratings are followed by the manufacturer of Battery Cabinets and Battery Racks.
