# Bhutan Energy Storage Project

What is Bhutan's energy security & sustainable growth policy?

Titled "Empowering Energy Security & Sustainable Growth," the policy consolidates and supersedes several prior frameworks, including the Bhutan Sustainable Hydropower Development Policy 2021, Alternative Renewable Energy Policy 2013, Domestic Electricity Tariff Policy 2016, and National Energy Efficiency & Conservation Policy 2019.

Is Bhutan a green energy exporter?

Market-Oriented Reforms: Establishing a domestic trading platform and regional interconnections (e.g., via Renewable Energy Certificates) positions Bhutan as a green energy exporter, potentially boosting revenues beyond the current 38% electricity share in total energy supply (793 KTOE in 2022).

What will Bhutan's NEP 2025 entail?

With Bhutan's techno-economically viable hydropower potential at 23,000 MW (from 90 sites outside ecological parks), solar at 12,000 MW, wind at 800 MW, and biomass at 2,700 GWh annually, the NEP 2025 sets ambitious targets: 25,000 MW total generation capacity by 2040, including 15,000 MW hydropower and 5,000 MW solar.

What is Bhutan's national energy policy 2025?

Bhutan's National Energy Policy 2025 (NEP 2025), released in June 2025 by the Ministry of Energy and Natural Resources (MoENR), represents a pivotal shift in the country's energy strategy.

This project is a core component of Reliance Power's broader renewable energy strategy, which includes over 2.5 gigawatts (GW) of solar power development and more than ...

Bhutan is entering a new era of clean energy with major commitments from Adani, Reliance, and Tata to develop large-scale hydro and solar projects across the kingdom. The ...

The partnership will develop multiple renewable energy projects, including 4,500 MW of hydropower capacity and 500 MW of ...

Overview Bhutan's Ministry of Energy and Natural Resources has inaugurated the country's first utility-scale solar power plant. The Sephu solar project, located in the town of ...

You know, Bhutan's capital isn't just about dzongs and chili peppers anymore. With hydropower providing 80% of its electricity, Thimphu's facing a modern dilemma: how to store surplus ...

"Reliance Power's total clean energy pipeline stands at 2.5 gigawatts peak (GWp) in the solar segment, making it India's largest player in the integrated solar and Battery Energy ...

Explore Bhutan's transformative National Energy Policy 2025 (approved June 2025): how it

---

consolidates previous energy frameworks into one cohesive NEP, opens ...

The partnership will develop multiple renewable energy projects, including 4,500 MW of hydropower capacity and 500 MW of solar energy. Notable projects include the 1,125 ...

Punakha--After months of delays caused by incessant rain and prolonged monsoon, Phase II of Bhutan's first utility-scale solar power plant in Yongtru, Sephu Gewog, is finally ...

Bhutan's authorities are seeking a developer to design, supply, install, test and commission a 120 MW solar farm. The deadline for applications is Jan. 26, 2026.

The Druk Green Power Corporation (DGPC) has officially invited international bids for the construction of a 120 MW solar power plant in Bhutan. This significant move, part of the ...
