
Bhutan Wind Power Energy Storage Project

What is the potential for wind power in Bhutan?

The theoretical development potential for wind power in Bhutan is an estimated 761 megawatts. Potential is highest at Wangdue Phodrang at 141.7 megawatts and Chukha at 91.8 megawatts.

How will Bhutan achieve its energy goals?

Bhutan plans to achieve this target through diversification in its energy portfolio beyond traditional hydropower, which would include solar and geothermal energy. This will extend to diversifying project structuring and financing through such strategic partnerships.

Why does Bhutan need hydropower?

More importantly, Bhutan sees its hydropower as critical in ensuring round-the-clock availability of power with India's huge investments in renewables such as solar and wind and the plans to further accelerate investments in these renewables over the next two decades.

What is Bhutan's energy security & sustainable growth policy?

Titled "Empowering Energy Security & Sustainable Growth," the policy consolidates and supersedes several prior frameworks, including the Bhutan Sustainable Hydropower Development Policy 2021, Alternative Renewable Energy Policy 2013, Domestic Electricity Tariff Policy 2016, and National Energy Efficiency & Conservation Policy 2019.

Bhutan's authorities are seeking a developer to design, supply, install, test and commission a 120 MW solar farm. The deadline for applications is Jan. 26, 2026.

Dr. Praveer Sinha, CEO & MD, Tata Power, said, "Tata Power's partnership with Druk Green Power Corporation reinforces our credentials as the most preferred clean energy ...

In a significant step toward energy self-sufficiency, Bhutan today commissioned the first phase of its largest solar power project, the Sephu Solar Project, in Wangdue Phodrang.

The first phase of Bhutan's first utility-scale solar power project at Sephu in Wangdue Phodrang is set for completion by March next year. A utility-scale solar facility ...

You know, Bhutan's capital isn't just about dzongs and chili peppers anymore. With hydropower providing 80% of its electricity, Thimphu's facing a modern dilemma: how to store surplus ...

Adani Group and Bhutan's Druk Green Power Corporation (DGPC) have signed a strategic agreement to jointly develop hydropower and pumped-storage power plants with a ...

The Druk Green Power Corporation (DGPC) has officially invited international bids for the construction of a 120 MW solar power plant in Bhutan. This significant move, part of the ...

Explore Bhutan's transformative National Energy Policy 2025 (approved June 2025): how it consolidates previous energy frameworks into one cohesive NEP, opens ...

Punakha--After months of delays caused by incessant rain and prolonged monsoon, Phase II of Bhutan's first utility-scale solar power plant in Yongtru, Sephu Gewog, is finally ...

Dr. Praveer Sinha, CEO & MD, Tata Power, said, "Tata Power's partnership with Druk Green Power Corporation reinforces our credentials ...

By working alongside Indian giants, Bhutanese engineers and institutions such as Druk Green Power Corporation (DGPC) and Druk Holding and Investments (DHI) gain access ...
