
Bucharest Emergency Energy Storage Power Supply

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floresti, Cluj county, which is expected to be operational by the end of 2025.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Does Romania have a double taxation of stored electricity?

Romania's National Energy Regulatory Authority (ANRE) recently eliminated the double taxation of stored electricity. The new rules exempt electricity stored and then reinjected into the grid from several tariffs, removing a significant financial barrier for investors.

Clean, Resilient Energy to Meet Romania's Growing Needs As Romania accelerates its transition to a sustainable energy future, energy storage is becoming a key ...

Romania has commissioned its largest battery energy storage system (BESS) to date: a 200 MW / 400 MWh project in Cluj County, developed by private investor Nova Power & ...

Nova Power & Gas is currently the national leader in battery storage capacity, with 240 MWh already operational. The company continues to expand its investment portfolio, ...

Nova also suggested that by 2028, the company plans to install energy storage systems of up to 600 MW / 1,200 MWh overall, supporting its gas power plants. Meanwhile, ...

The largest battery energy storage capacity in Romania - 200 MW power and 400 MWh capacity - has been put into operation, announced Energy Minister Bogdan Ivan. ...

Bucharest is rapidly embracing lithium battery energy storage to stabilize its power grid and support renewable energy adoption. This article explores how cutting-edge storage solutions ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania.

Nova Power & Gas has commissioned the largest battery energy storage system in Romania,

doubling the country's total capacity. ...

The largest battery energy storage capacity in Romania - 200 MW power and 400 MWh capacity - was operationalized on Friday, Minister of Energy, Bogdan Ivan announced.

Nova also suggested that by 2028, the company plans to install energy storage systems of up to 600 MW / 1,200 MWh overall, ...

Bucharest, October 20, 2025 -- The Europe Today: Romanian power supplier and distributor Electrica S.A. (BSE: EL) today announced the initiation of permitting procedures for 15 battery ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest ...

Nova Power & Gas has commissioned the largest battery energy storage system in Romania, doubling the country's total capacity. The installation in Floresti, Cluj County, has an ...
