# Can Vilnius carry out energy storage projects

What is E-Energija doing in Lithuania?

E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%.

Why does Lithuania need reliable energy storage?

Uloza pointed to the growing demand for reliable energy storage as Lithuania's renewable energy sector expands.

What is Lithuania's first commercial battery storage facility?

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately 50%. The system is scheduled to begin operations by the end of 2025.

What is the largest "private" BESS project in Lithuania?

IPP E-energija Group has started building what it claims is the largest 'private' BESS project in Lithuania, a few weeks after the Baltic region decoupled from Russia's electricity grid. The 120MWh battery energy storage system (BESS) project near Vilnius, the capital of Lithuania, will come online by the end of 2025.

Local system integrator NordNest will provide the BESS solution. Image: NordNest / E-energija Group. IPP E-energija Group has ...

3. Climate, Air & Energy 4. General & Cross-Sector Environmental Vilnius, Lithuania Posted 33 minutes ago Ignitis Group Position Overview Application Deadline: ...

E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility, which is set to ...

Due to the rising demand for energy storage, propelled further by the need for renewable energy supply at peak times, energy storage ...

Lithuanian renewable energy group E-energija is starting the construction of its first commercial battery park, the Vilnius BESS; the group announced on Tuesday. Energy storage ...

The energy storage system, which will provide Lithuania with an instantaneous isolated operation electricity reserve until synchronisation with the continental European networks (CEN), will be ...

E-energija Group has started building Lithuania's largest battery energy storage system (BESS), known as the Vilnius BESS, with a capacity of 120MWh. Located near Vilnius, ...

---

Energy accumulation and storage development process has already started in Lithuania. However, energy storage projects (both ...

Trina Storage, the battery energy storage system (BESS) division of solar energy firm Trinasolar, has announced the deployment of three new battery storage projects in ...

Helsinki, 1.7.2025 --E energija group and Capalo AI have signed an agreement to trade and optimize the 120 MWh Vilnius Battery Energy ...
