
Customized solar curtain wall for shopping malls in Toronto Canada

Why should you choose a curtain wall supplier in Toronto?

There are different ways you can achieve your ideal building; using quality and modern curtain wall systems or window walls is one of them. Alumshine is one of the best curtain wall suppliers and companies in Toronto, providing high-performance construction materials to help building owners create better and more efficient buildings.

Who are alumshine curtain wall systems?

Contact Us if You Need More Information About Our Curtain Wall Systems As a reputable building cladding and curtain wall supplier in Toronto, Alumshine provides all types of window wall systems to help you build what you deserve.

What is a curtain wall?

Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels.

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.
