
Energy Storage Projects in Equatorial Guinea 2025

Why do we need new acreage in Equatorial Guinea?

With the global energy landscape evolving and production from mature fields declining, the promotion of new acreage is essential to ensuring long-term energy security and continued revenue generation for Equatorial Guinea.

Will Equatorial Guinea launch new licensing opportunities in 2025?

Equatorial Guinea plans to launch new licensing opportunities in 2025 as part of its efforts to attract investment, boost exploration and ensure long-term energy security. Equatorial Guinea is taking decisive steps to revitalize its upstream sector, with plans to launch a new licensing round in 2025 aimed at increasing exploration and production.

Does Equatorial Guinea support exploration?

Equatorial Guinea's commitment to advancing exploration is a testament to its strategic vision, and the AEC fully supports these efforts," states Tom Gerbasio, VP Commercial and Strategic Engagement, African Energy Chamber.

How many blocks are available in Equatorial Guinea?

Equatorial Guinea's last licensing round, held in 2019, offered 27 blocks for exploration and attracted significant industry interest, with 53 companies participating and 17 bids submitted. Blocks available in the upcoming round will include Block H and Block 02, previously operated by Atlas Oranto Petroleum and PanAtlantic Energy (Vanco Energy).

Energy storage is one of the hot points of research in electrical power engineering as it is essential in power systems. It can improve power system stability, shorten energy generation ...

Search all the ongoing (work-in-progress) renewable energy projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Equatorial Guinea with our ...
