# Financing for a 120kW mobile energy storage container for agricultural irrigation

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

Are solar powered cold storage containers a good idea?

Construct solar powered cold storage containers for the storage of agricultural products via pay-for-use models. Increased cold storage results in less overall food waste with resulting income and environmental benefits (9).

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.
