
Flow battery in Zurich Switzerland

Could a redox flow battery be Europe's largest flow storage system?

Flexbase Group has broken ground on an 800 MW/1.6 GWh redox flow battery project in Laufenburg, Switzerland, in what could become one of Europe's largest flow storage systems. The multi-use site will integrate utility-scale storage, an AI data center, and district heating. From ESS News

What is the world's largest flow battery?

Construction has started on what is described as the world's largest flow battery, an 800-MW/1.6-GWh project in Laufenburg, Switzerland, non-profit association Flow Batteries Europe (FBE) said on Tuesday.

Who is flexbase's redox flow battery project?

Sandra is News Director of pv magazine Deutschland. She has been reporting on solar since 2008. Flexbase Group has broken ground on an 800 MW/1.6 GWh redox flow battery project in Laufenburg, Switzerland, in what could become one of Europe's largest flow storage systems.

Where will redox flow battery energy storage be built?

From pv magazine Germany A redox flow battery energy storage facility with an output of 500 MW will be built in Switzerland. The development was announced by the company Flexbase, which said the project is being built in Laufenburg, a town on the Rhine that lies partly in Switzerland and partly in Germany.

Flexbase Group has begun construction on what could become one of Europe's largest flow battery storage installations, breaking ground on an 800 MW/1.6 GWh redox flow ...

Construction has started on what is described as the world's largest flow battery, an 800-MW/1.6-GWh project in Laufenburg, ...

Construction has started on what is described as the world's largest flow battery, an 800-MW/1.6-GWh project in Laufenburg, Switzerland, non-profit association Flow Batteries ...

Flexbase plans to build a 500 MW redox flow battery energy storage project in Switzerland in early 2025.

18 June 2025: Construction work for the world's largest flow battery started this month at the strategic critical electrical grid interconnection point on the borders of Germany, France, and ...

June 20, 2025: Construction of an 800 MW/1.6 GWh flow battery has been launched on the borders of three European countries, Flow Batteries Europe (FBE) announced on June 17. ...

FlexBase Group will start construction on a data centre plus 800MW/1,600MWh flow battery in Switzerland the coming weeks, the firm ...

FlexBase Group will start construction on a data centre plus 800MW/1,600MWh flow battery in Switzerland imminently, the firm claimed.

Flexbase Group has begun construction on what could become one of Europe's largest flow battery storage installations, ...

FlexBase Group will start construction on a data centre plus 800MW/1,600MWh flow battery in Switzerland the coming weeks, the firm claimed, explaining to Energy ...

June 20, 2025: Construction of an 800 MW/1.6 GWh flow battery has been launched on the borders of three European countries, Flow Batteries ...

FlexBase At the star of Laufenburg, we are creating a technology center that will set new standards. A huge redox flow battery storage facility and a water-cooled (district heating) ...

Flexbase Group has broken ground on an 800 MW/1.6 GWh redox flow battery project in Laufenburg, Switzerland, in what could ...

18 June 2025: Construction work for the world's largest flow battery started this month at the strategic critical electrical grid interconnection point on ...
