
Generator silencer container manufacturer

What is a generator exhaust silencer?

This type of generator exhaust silencer is mounted on the exhaust and acts as a silencer, dampening part of the noise. A typical example of a generator exhaust silencer is the Camco Gen-Turi Exhaust Venting System. Designed for RV generators, it works by reducing generator fumes and noise.

Can a silencer box be built over a generator?

If you want a more comprehensive solution, you can build a silencer box that installs over your generator to muffle the noise, similar to the plywood method. Building a silencer box will take a bit of woodworking, but it provides an easy way to muffle the sound of your generator quickly and even on the go.

Who makes gas turbine exhaust silencers?

Schock Manufacturing personnel have extensive experience with both design and fabrication of Gas Turbine exhaust silencers for large frame turbines. We have inspected thousands of Exhaust Silencers by most manufacturers, and know what the early signs of failure look like.
