What types of containers are available in Osaka?

We understand that every customer has unique requirements in Osaka, which is why we offer a variety of container types and sizes, from standard 20ft and 40ft units to specialized high cubes, open tops, and double-end door containers.

What makes a container explosion-proof?

Containers for explosion-proof zones feature specially designed internal and external components that are blast-resistant, which promotes greater safety during shipping. The focus is on ensuring that parts that come in direct contact with the cargo are built to resist explosions, which significantly reduces the risk.
