
Price quote for 100kW collapsible containers used in Southeast Asian ports

How efficient were South Asia's container ports in 2010?

If South Asia's container ports were as efficient as the most efficient ports in the world, in 2010 South Asia's container ports could have handled more than double the number of containers using the same facilities. This is undoubtedly an inefficient use of past investments.

What determines the final container price for international shipping?

There are a number of different elements that define the final container price for an international shipping. Some key factors are: The type of container required: 20ft, 40ft, 40ft HC... all depends on your needs The Incoterm used in the contract will define which part (exporter or importer) pays each transport service
