We proudly serve major companies in Indonesia, ensuring reliable power solutions and continuous growth in our offerings to meet diverse business needs.

What is uninterruptible power supply (UPS)?

Uninterruptible power supply (UPS) is a power supply system that contains a rechargeable battery to provide power to the load equipment in the event of a power outage. Several reasons cause the power fluctuations including power outage, voltage dip, voltage spike, brownout, noise, and frequency fluctuation.

Is Indonesia's power supply sector a key player in Southeast Asia?

Lastly, the global market relevance of Indonesia's power supply sector is also notable, as it is positioned as a key player in Southeast Asia's energy landscape. Investors and companies must stay informed about both local developments and global energy trends to navigate this dynamic industry effectively.
